List files on the selected folder, files and folders, and on the drives/partitions, in the specified order. KEYMACRO helps to select a range of files from a number of files in the selected folder. This command is very useful in such situations as: - copying only those files from a folder that has an expired password; - selecting only those files that have been updated in the last 24 hours; - making sure that only those files that have been downloaded or installed since the last backup are displayed; - selecting only those files that have been updated in the last few days. KEYMACRO can be used in batch mode. The main parameters of KEYMACRO are: - directory; - list of files to be displayed; - order; - range, when specified, selects a range of values for the listed parameters (for example, 7 days, from the 1st to the 7th day); - changes the order of the listed files in the selection. KEYMACRO features two modes: view and edit. To view a directory, the command should be typed in the following way: KEYMACRO /d DIR [/s] [/r] [/b] [/e] [/s] [/f] [/w] [/c] [/p] [/i] [/d] [/l] If the user selects the mode view, then the command line should look like: KEYMACRO /d DIR [/s] [/r] [/b] [/e] [/s] [/f] [/w] [/c] [/p] [/i] [/d] [/l] [/?] [/n] [/m] [/c] NOTE: If only the default value for the command-line option -n is used, then the program does not display the line number of the selected file. If the -r option is used with the command line, then the program displays the list of changes that are available in the file. If the -s option is used with the command line, then the command-line options are set for short-format output of the display. If the -e option is used with the command line, then the command-line options are set for long-format output of the display. KeyMACRO /d DIR [/s] [/r] [/b] [/e] [/s] [/f] [/w] [/c] 81e310abbf

I'm aware this can be fixed by using "position:absolute" but I'd like to understand why this is happening to ensure I understand the basics of web design. CSS: .centered-container { width: 100%; height: auto; position: fixed; left: 0; top: 0; text-align: center; } .centered-content { position: absolute; top: 0; bottom: 0; right: 0; left: 0; background-color: #f4f4f4; padding: 20px; } HTML: Header Lorem ipsum dolor sit amet, consectetur adipiscing elit.
